# £30k Yamaha MT-01

This is what you can do with a Yamaha MT-01 if you really throw the euros at it. Created by German Yamaha dealer and serial special builder Dominik Klein, this £30,000 special soaked up an entire weekend's thrashing at a recent Hockenheim track day.

MCN's executive editor Rupert Paul rode the bike and said: It produces crisp, massive grunt as soon as you touch the throttle. The thudding torque pulses are simply enormous, and the entire bike shudders like a horse when you kill the ignition. Track sessions proved that it's brilliantly suspended and hilariously fast – a characteristic of all Klein's bikes.

MCN rode this MT-01 special by German dealer and specials builder Dominik Klein

It's road legal; we rode it on track

Bike is superbly built and detailed
